Service skills are targeted to

Standard units for wastewater treatment (evaporators, flotation units, biologic, chemical-physical, clarification units)

Standard units for process water (ro, uf, cedi)

Chemicals

Mobile units for wastewater treatment and process water

Standard units for wastewater treatment

The service for EVALED evaporators, IDRAFLOT DAF units and ACTIFLO clarification units.

Spare and consumable parts available in stock

Maintenance:
- ordinary (scheduled)
- extra maintenance (scheduled)
- emergency maintenance (not scheduled)

Operation of turn-key plants

Maintenance contracts

Plants remote control

Permanent Client's staff training

Chemical and analytics analysis

Standard units for process water (RO, UF, CDI)

An after-sales service aimed at optimizing both the running costs and the quality of the water produced.

Ordinary maintenance

Spare and consumable parts

Chemical analysis

Breakdowns management

Hydrex chemicals for water treatment

Evaled and Idraflot are designed to work with Hydrex

Antifoam products for evaporation processes

Maintenance chemicals (cleaners, antiscalants and anticorrosives)

Polyelectrolyte and coagulants for chemical-physical processes and flotation

Hydrex series

1000 series: total boiler water treatment chemicals

2000 series: closed and open cooling system treatment programs (cooling towers, air coolers)

3000 series: drinking water production

4000 series: effective antiscalants and cleaners

5000 series: industrial maintenance chemicals (corrosion inhibitors)

6000 series: state-of-the-art clarification and wastewater chemistry and application experience

7000 series: bioacides with a broad spectrum of activity and legionella control

8000 series: established process and speciality chemicals

9000 series: wide range of other applications

Mobile water services

A complete range of solutions and services meeting short and long term water treatment needs.

The ideal solution to respond to emergencies due to equipment breakdowns, plant downtime for maintenance purposes, peak demand or pilot testing.

Large fleet of trailers and containers

Full assistance and availability at peripheral centres

High flow rates capacity solutions

Pure water and drinking water production

Wastewater treatment

Re-use applications

Related services

Technologies

EVALED - evaporators

IDRAFLOT - flotation units

MORO - osmosis, suitable for sea-water as well

MOFI - carbon and sand filters

MOFI uf - ultrafiltration

MODI - ion exchange resins

MOSO - softners
